

NOMINATION ANNOUNCEMENT

Fabien MILANESI appointed new CEO of Hug Engineering

Elsau (Switzerland), December 13, 2023

Effective from September 1, 2023, Fabien Milanese has been appointed as new Chief Executive Officer of Swiss exhaust gas purification specialist Hug Engineering AG, a Faurecia company.

With an educational background in Engineering (MSc) and Economics (MBA) Fabien Milanese started his career in the automotive industry and acted in various management positions mainly in operations and controlling, before he joined Faurecia part of Forvia Group in 2011. Within Faurecia Clean Mobility Fabien worked further on in different leading positions within the financial department based in France, Denmark & China and lately as General Manager at Amminex Emissions Technology, a Faurecia company with a breakthrough de-NOx technology for diesel engines application.

“We are very pleased to welcome Fabien Milanese as new CEO of Hug Engineering. With his broad knowledge in operations and finance and his previous experience as General Manager he is perfectly positioned to address the challenges in the high horsepower exhaust aftertreatment market and to enable Hug Engineering to grow and strengthen its position for clean solutions in the industry and mobility.”

HUG Leadership Team

ABOUT HUG ENGINEERING

Hug Engineering is one of the leading suppliers for low to zero-emission solutions. We produce systems for Diesel and gas engines used in Marine, Power Generation and Mobile applications. The company provides efficient solutions and customized concepts for exhaust gas cleaning. As one of the few manufacturers in the world, we develop, design and produce all key components in-house and are setting new benchmarks in the area of exhaust gas aftertreatment. Our products are compliant with the major regulations, such as, IMO Tier III and EPA T4f and local regulations. Using a global distribution network, Hug Engineering is present in the international market. This guarantees constant and prompt support in terms of sales, repair, spare parts and product servicing.

Hug Engineering belongs to the Faurecia part of FORVIA Group, one of the leading automotive suppliers. For more information, visit: <https://hug-engineering.com/>.
